Developer
SURES RANATHUNGA

PROFILE

I specialize in building dynamic and user-friendly web solutions, leveraging modern technologies to deliver seamless digital experiences. As a full-stack developer with over one year of freelance experience, I primarily focus on web application development using the MERN stack. My expertise lies in creating robust, scalable applications that meet client needs and enhance user interaction.

EXPERIENCE

Freelance Platforms
2024 - Current
I worked as a Full Stack Developer on freelance platforms like Fiverr, specializing in web applications, chatbots, and data scraping. My expertise spans technologies such as HTML, CSS, JavaScript, TypeScript, Next.js, React, Redux, Node.js, MongoDB, and MySQL.

Rivonit Technology
2023 - 2024
As a Full Stack Developer, I spearheaded numerous projects focused on browser extensions.
I utilized a robust tech stack, including TypeScript, Tailwind CSS, React, Redux, EJS, Node.js,Webpack , Vite and MongoDB, to deliver high-quality solutions.

PROJECTS

Mahum Academy
This is an LMS developed using Next.js, Redux, Tailwind CSS, Express, and MongoDB.
It features a user-facing frontend and an admin panel, with the backend comprising three APIs.
